

CAT201 – Integrated Software Development Workshop

Semester 1, 2021/2022

Assignment 2

Objective:

- To develop a personal CV web page that includes text, sound, and video.

Specification:

Use any existing web tools or web development site (for example adobe spark) to build a personal home page that keep user contacts information including name, mobile number, email address. Besides that, it introduces user CV such as education background, competencies, skills, hobbies, and interests. It can use any graphic tools or video editing tools to edit the content.

Include your design layout, url and one page description about your website in your report (word or pdf).

10% of the total mark,

Dateline: Monday, 31 January 2022, submit your report online.
